**Obedience Training for
the REAL World**

We teach *you* how to
develop *your* dog into
an enjoyable companion

A bit about Elm Obedience School

- Over 35 years experience teaching Dog Obedience Classes in the Calgary area
- Instructors regularly attend Canine Training and Behavior Seminars to remain up to date on current training theories and methods
- Instructors teach firm but fair FUN methods THAT WORK for you AND your dog
- Emphasis is on teaching you how to understand and observe canine behavior, noting how it differs from human behavior
- Ensures that all dogs are treated fairly and humanely, with their intelligence and dignity respected

- 10 week **Beginners** course teaches your dog the fundamentals to provide a solid foundation. Your dog will learn: sit, down, stand, heel, come and finish in a graduated progression that ensures complete understanding of all commands.

- 6 week **Novice Polishing** course reinforces the basic exercises to prepare for entry in formal C.K.C. Novice Obedience Trials as well as off-leash control for everyday life. Jumping is also introduced to teach correct form so necessary for advanced Obedience levels, Agility, and Field Work.

What some of our many satisfied participants say ...

"I have participated in several obedience classes through the years and feel Elm Obedience School is far superior to others I have attended. As a German Shepherd breeder, over 80% of my puppies have attended Elm and have enjoyed resounding success."

Marianne McCallum

"Even though Cavaliers are a small breed, I recommend Elm Obedience School to all my puppy buyers. Both dogs and owners learn so much while having a great time. These classes help the dogs gain confidence and make them easier to handle so they become even more enjoyable companions."

*Wendy Argent
Cavalier King Charles Spaniel breeder*

"As dog owners and dog breeders, we recommend Elm Obedience School exclusively to our puppy buyers and friends. Eda and her staff provide positive, practical and consistent training methods that will prove to provide you and your dog with a healthy and happy relationship that will last a lifetime."
